

### Shade Tree Hues Named

Part of California's special appeal is its comparative lack of cold, chilling, winter weather. But because of its general climatic mildness there is lacking, too, the widespread changing of colors on shrubs and trees that heralds Fall's arrival in other areas of the country.

The California Association of Nurserymen points out, however, that fortunately there are several trees growing in California that will provide bright Fall color. One of the most popular is the ginkgo Biloba or maidenhair tree. The sole remaining member of a Chinese family of trees the ginkgo features fan-shaped leaves that blossom light green in spring and turn a golden yellow in the Fall.

A FULL PANEL-TYPE WINDOW in the living room adds to the attractiveness of the new Coronado, news-making "personalized" one-floor home just introduced to American home buyers by U. S. Steel Homes. The three-bedroom house, with living room, dining area, stepsaving kitchen, bath and utility room, offers a choice of floor plan and architectural treatment. The window bay adds to the spaciousness of the living room and integrates the interior with the outdoors. Thermopane is used in the bay openings for insulation.

### Calcium Cyanamide Aids New Lawns

Fall is generally regarded as the best time of year to put in a new lawn. Soil conditions are favorable for grass growth and there is less likelihood of the tender shoots being burned by excessive heat from the sun.

The important factors in building a good lawn are proper preparation of the lawn bed, using seed that is well adapted to the region, and proper care during the crucial period when the grass is first getting established. Weed control and proper feeding of the new grass are especially essential.

Gardeners planning to put in new lawns this fall will be interested in the results obtained in turf production at the Sepulveda Golf Course in the San Fernando Valley. This course is owned and operated by the City of Los Angeles Park and Recreation Department.

New Gas ranges cost less to buy and use. Range illustrated is WEDGEWOOD.

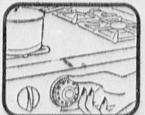

### Look at all the time-saving features you get on a new GAS range

**SUPER-SPEED BROILER**  
Special radiant in Gas broiler direct quick, searing heat of live Gas flame downward for fast broiling—flame-kissed flavor.

**NEEDLE PILOTS**  
Tiny Gas needle pilots, all but invisible at 3 feet, give instantaneous lighting. Needle pilots are so small they leave no hot spots.

**TIMER FOR TOP BURNER**  
Automatically shuts off top burner when pre-set cooking time is up. No pot-watching. And Gas gives you 1001 heats.

**CLOCK CONTROL**  
Automatic clock control frees you for other tasks. Turns over on and off. Oven control holds exact heat you choose.

**EASY-TO-WASH PARTS**  
New Gas ranges clean up in jig time. Many parts lift out for rinsing in sink. One piece tops and seams—less ovens clean easily.

See the latest models at any dealer's or your Gas Company's showrooms.
